REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation #: 907 KAR 15:080

Contact person: Stuart Owen (502) 564-4321, extension 2015

(1) Provide a brief summary of:

(a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program outpatient chemical dependency treatment center (CDTC) services. This administrative regulation is being promulgated in conjunction with 907 KAR 15:085, Reimbursement for outpatient chemical dependency treatment center services. To qualify as a provider, a chemical dependency treatment center must be licensed in accordance with 902 KAR 20:160. CDTCs are authorized to provide, to Medicaid recipients, behavioral health services related to a substance use disorder. The array of services includes a screening; an assessment; psychological testing; crisis intervention; mobile crisis services; day treatment; peer support; intensive outpatient program services; individual outpatient therapy; group outpatient therapy; family outpatient therapy; collateral outpatient therapy; and a screening, brief intervention, and referral to treatment (SBIRT) for a substance use disorder.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with federal mandates. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment" for all recipients. 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base (to include chemical dependency treatment centers) will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by complying with federal mandates and enhancing and ensuring Medicaid recipients' access to behavioral health services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by complying with federal mandates and enhancing and ensuring Medicaid recipients' access to behavioral health services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The

amendment after comments removes a reference to service planning; also clarifies that an assessment, case management, individual outpatient therapy, group outpatient therapy, peer support services, and mobile crisis services will not be covered if provided during the same period of time as assertive community treatment; and contains miscellaneous wording changes for uniformity or clarity.

(b) The necessity of the amendment to this administrative regulation: The amendment which removes a reference to service planning is necessary as service planning is not a CDTC-covered service. The amendment regarding assertive community treatment is necessary as the above listed services would duplicate components of assertive community treatment. Other revisions are added for uniformity of terms or clarity.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments will conform to the content of the authorizing statutes by clarifying requirements and preventing the possibility of duplication (and waste of taxpayer money) of services.

(d) How the amendment will assist in the effective administration of the statutes: The amendment after comments will assist in the effective administration of the authorizing statutes by clarifying requirements and preventing the possibility of duplication (and waste of taxpayer money) of services.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Entities licensed as chemical dependency treatment centers (CDTCs), behavioral health professionals authorized to provide services in CDTCs, and Medicaid recipients who receive services in CDTCs will be affected by the administrative regulation. The following behavioral health professionals are authorized to provide services in a CDTC: licensed psychologists, advanced practice registered nurses, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, licensed psychological practitioners, certified psychologists with autonomous functioning, licensed psychological associates, certified psychologists, certified social workers, licensed professional counselor associates, marriage and family therapy associates, licensed professional art therapists, licensed professional art therapist associates, certified alcohol and drug counselors, licensed clinical alcohol and drug counselors (contingent and effective upon approval by the Centers for Medicare and Medicaid Services), licensed clinical alcohol and drug counselor associates (contingent and effective upon approval by the Centers for Medicare and Medicaid Services), and peer support specialists. Currently, there are four (4) licensed CDTCs in Kentucky.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify as chemical dependency treatment center and who wish to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete an application and submit it to DMS) and sign agreements with managed care organizations if the individual wishes to pro-

vide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The entities referenced in paragraph (a) will benefit by receiving Medicaid Program reimbursement for providing behavioral health services to Medicaid recipients. Behavioral health professionals authorized to provide services in a chemical dependency treatment center will benefit by having more employment opportunities in Kentucky. Medicaid recipients in need of behavioral health services will benefit from an expanded base of providers from which to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as DMS cannot estimate the utilization of these services in CDTCs compared to utilization in other authorized provider settings (independent behavioral health providers, community mental health centers, federally-qualified health centers, rural health clinics, and primary care centers.) However, an actuary with whom DMS contracted has estimated an average per recipient per month increase (to DMS) of twenty-seven (27) dollars associated with DMS's expansion of behavioral health services (including substance use disorder services) as well as behavioral health providers this year.

(b) On a continuing basis: The response in paragraph (a) also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities

FEDERAL MANDATE ANALYSIS COMPARISON

Administrative Regulation #: 907 KAR 15:080

Contact person: Stuart Owen (502) 564-4321, extension 2015

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a(a)(23).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope as available to other individuals (non-Medicaid.) Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3).

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as DMS cannot estimate the utilization of these services in CDTCs compared to utilization in other authorized provider settings (independent behavioral health providers, community mental health centers, federally-qualified health centers, rural health clinics, and primary care centers.) However, an actuary with whom DMS contracted has estimated an average per recipient per month increase (to DMS) of twenty-seven (27) dollars associated with DMS's expansion of behavioral health services (including substance use disorder services) as well as behavioral health providers this year.
